

## **Corporate Overview:**

Founded in 1999, SaaS Software, Inc. is a privately held Texas Corporation headquartered in Dallas, TX. SaaS Software, Inc., (SSi) consistently delivers proven profit-driving IT solutions “Powered by SSi™” enabling its clients to drive new revenue, gain competitive advantage and capitalize on business opportunities.

Since its inception, SSi boasts business and technical expertise supported by rich experiences to provide high-quality “on-target” technology solutions to meet clients’ needs. The company’s leadership team and other team members’ backgrounds from Fortune 100 IT processes and disciplines underscore the company’s business strategy and application methodology. In 2008, George Gundling, former PepsiCo and Frito-Lay senior technology executive, assumed leadership as President and CEO.

SSi develops and supports custom business solutions and commercial web-based and mobile software applications for companies in the healthcare, telecommunications and mobile, transportation, financial services, and consumer products industries.
